

# Ben Bowden

## Website & Enterprise Development

Since 1989, Ben, Steve Lee and Robert Worley have worked successfully as a creative team on a long, diverse list of accounts. Ben specializes in developing secure and inventive programming solutions for all types of businesses.

Bowden's extended team members include five Designers/Programmers whose technical expertise is unmatched for web design and extends into enterprise system implementation. They have developed and maintained production applications running in a number of different environments including, Apache, IIS, and J2EE.

This impressive team has developed applications ranging from basic informational websites to enterprise database applications including ecommerce, intranets and extranets.

## Core Competencies
